

‘Results are in! Changing motivations for sustained impact

Evaluation of Anchor’s Supporting Transitions program

Anchor Community Care and Supporting Transitions Program

Heidi Tucker

CEO - Anchor Community Care Ltd

Anchor's Vision

Every child, young person and family can overcome disadvantage and achieve their full potential.

About Anchor...

- A proud history of serving Melbourne's east for over 45 years.
- Services include Foster Care, Kinship Care, Youth Development and Homelessness Support.
- Our work is underpinned by Developmental Theory, Trauma Informed practices, Advantaged Thinking and Self-Determination Theory.
- Our experiences leading the Brighter Futures project has resulted in widespread practice change across our core services.

About the program...

- Young people ready to exit residential care at age 16+ who can benefit from a program that develops independence and prepares them to leave statutory care at 18.
- Clients live in self-contained one or more-bedroom accommodation.
- Close to amenities with staff located close by and a youth mentor living on site in their own accommodation.
- Targeted Care Packages as the funding stream (based on individual needs).
- The program is based on the frameworks of:
 - Housing First,
 - Intensive Case Management with a focus on the young person directing their own care,
 - Advantaged Thinking, and
 - Self Determination Theory supported by Shayne Hood a consultant engaged by Anchor.
- Growing significantly. Now in 3 locations.
- Further expansion will be driven by property acquisition (Anchor owned, public housing, or private accommodations).

How does it work?

Clients feel Safe

Clients feel safe in their own private accommodation for up to 2 years.

Strengths are aligned to goals

Advantaged Thinking approach to program design aligns client's strengths with their goals.

Empowered and in control

We empower clients to make their own good choices, so they are in control of their own life decisions.

Increased resilience

Clients learn how to problem-solve, manage risks and difficult environments through increased resiliency.

Strengthens service linkages

The program provides a strong link between residential care and other leaving care services such as Better Futures and Home Stretch.

“The team here asked me what I wanted instead of telling me what I wanted.

So, I had a choice and I was involved in a lot more stuff about me.

It changes who you are.”
– Tegan, 19yo

Evaluation Methodology

Avi Macmull

Quality & Evaluation Lead

**Concept 1:
Mixed Methods**

Design & Evaluation
Theory**

**Concept 4:
Self-Determination
Theory**

Concept 1 – Mixed methods

Concept 2 - Anchor's Outcomes & Impact Framework

Domain 1: A safe and stable place

1. Clients are and feel safe

2. Clients are living in a stable and sustainable environment

3. A suitable place is available when it is needed

Domain 2: Learning, education & employment

1. Clients are learning and utilising self-care and independent living skills

2. Clients are developing personal skills (social, organisational, problem solving)

3. Clients are participating in education

4. Clients find and retain employment

Domain 3: Healthy relationships and connections

1. Clients know how to ask for help and where to seek it

2. Clients have access to help and assistance when they need it

3. Families reconcile, are reunified, and are sustainable, or permanent care arrangements are put in place

4. Clients have contact and strong support systems and connections from family, friends, community and services

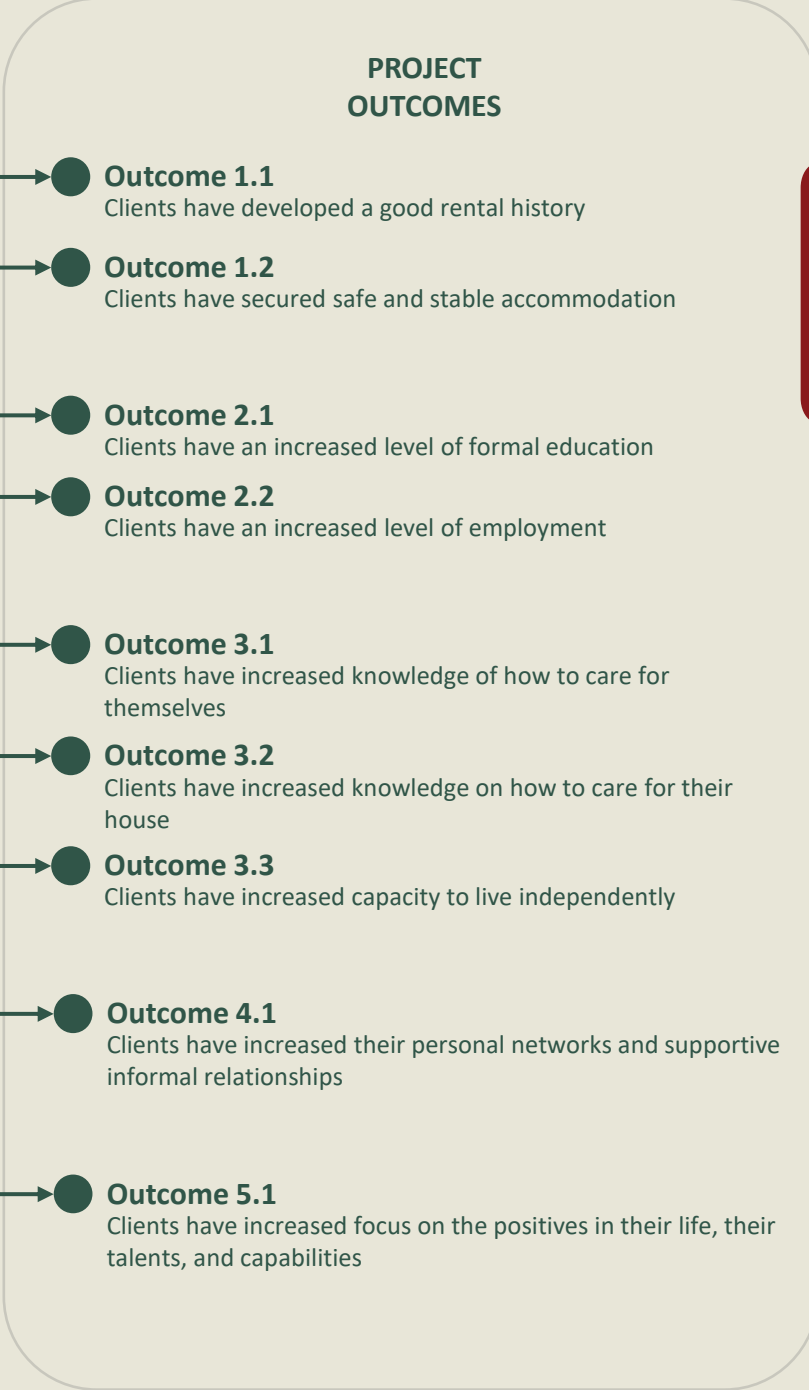

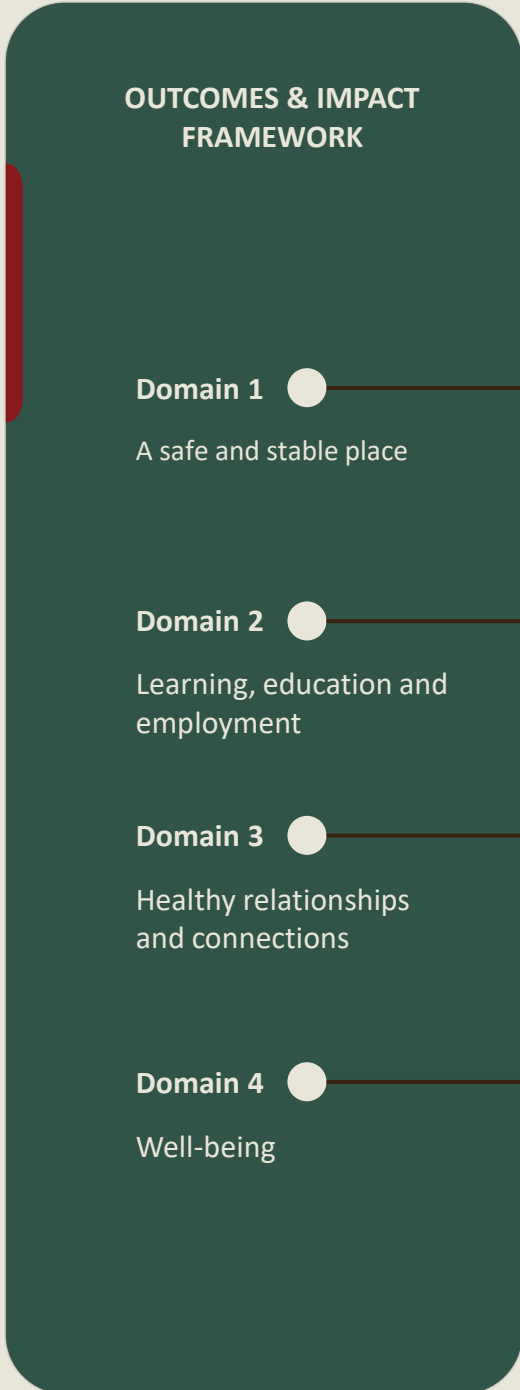

Domain 4: Well-being

1. Clients are motivated to improve their wellbeing

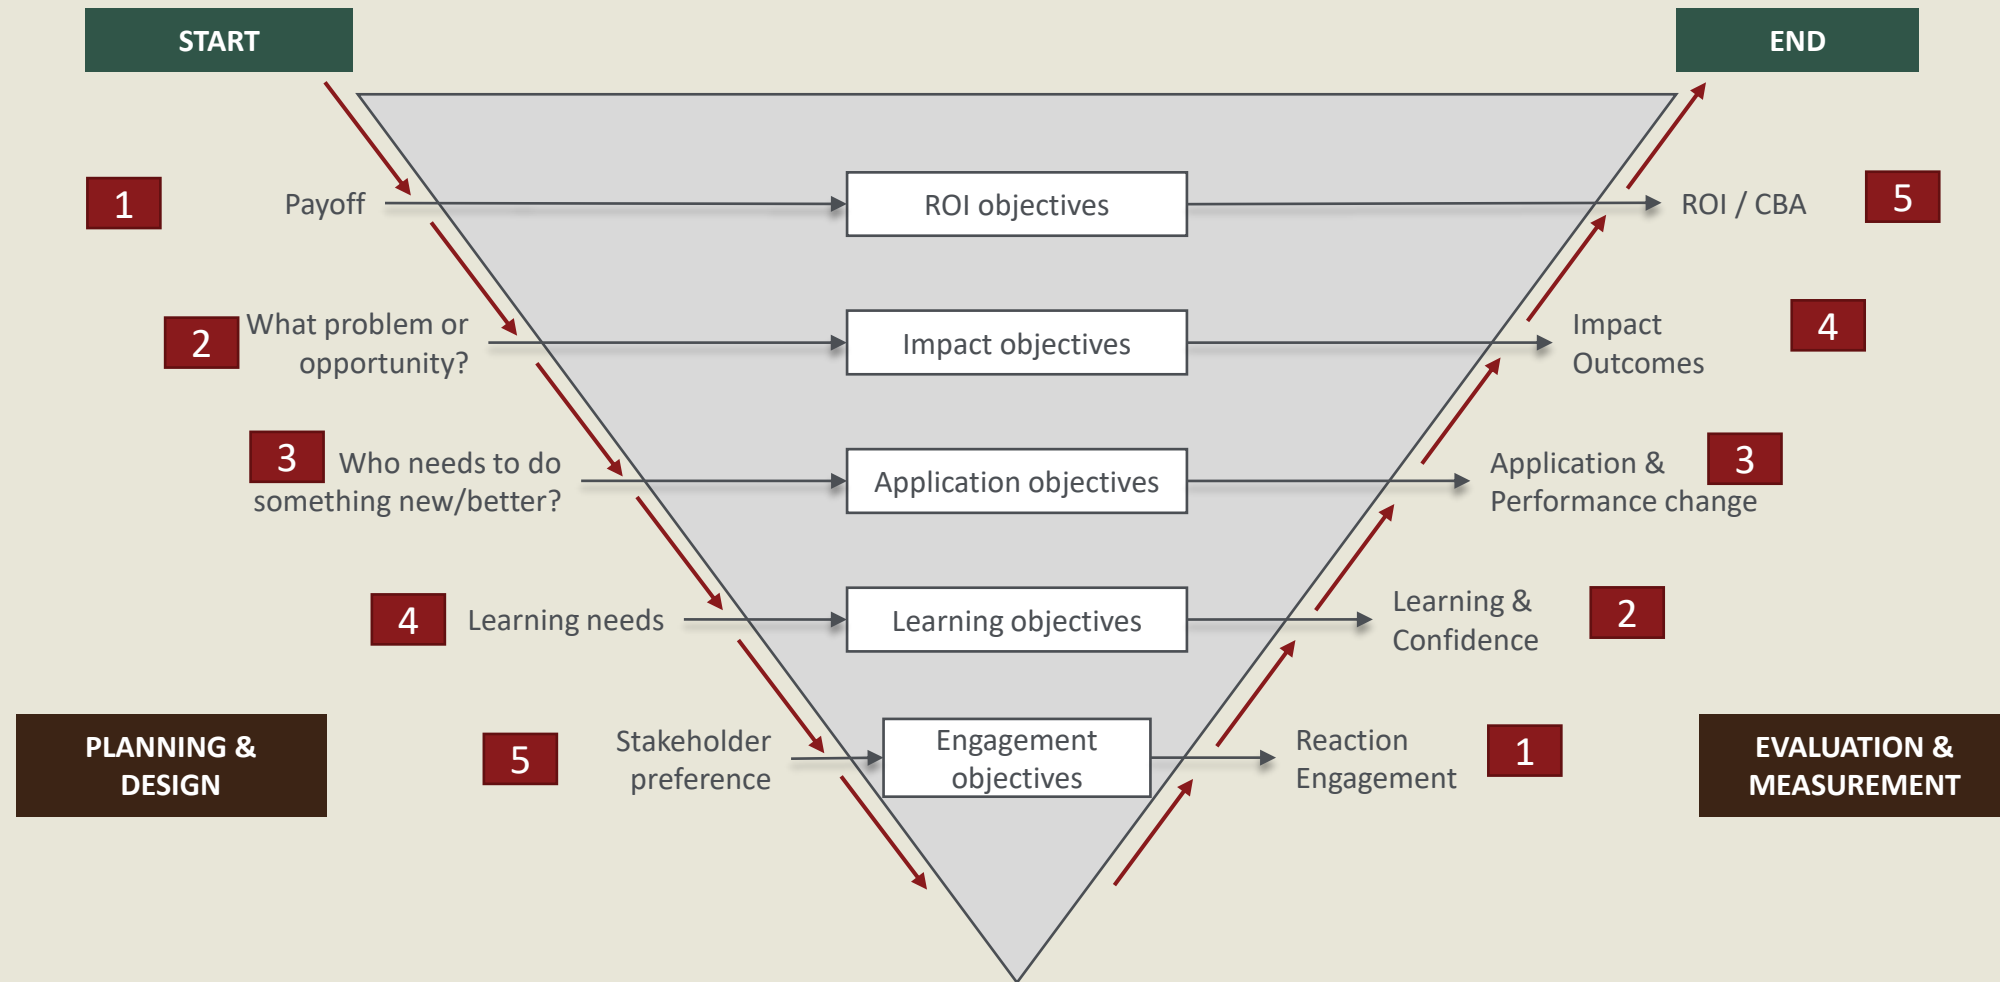

2. Clients have autonomy to choose and pursue their own life experiences

3. Clients are achieving their developmental milestones, and goal-setting for their preferred paths

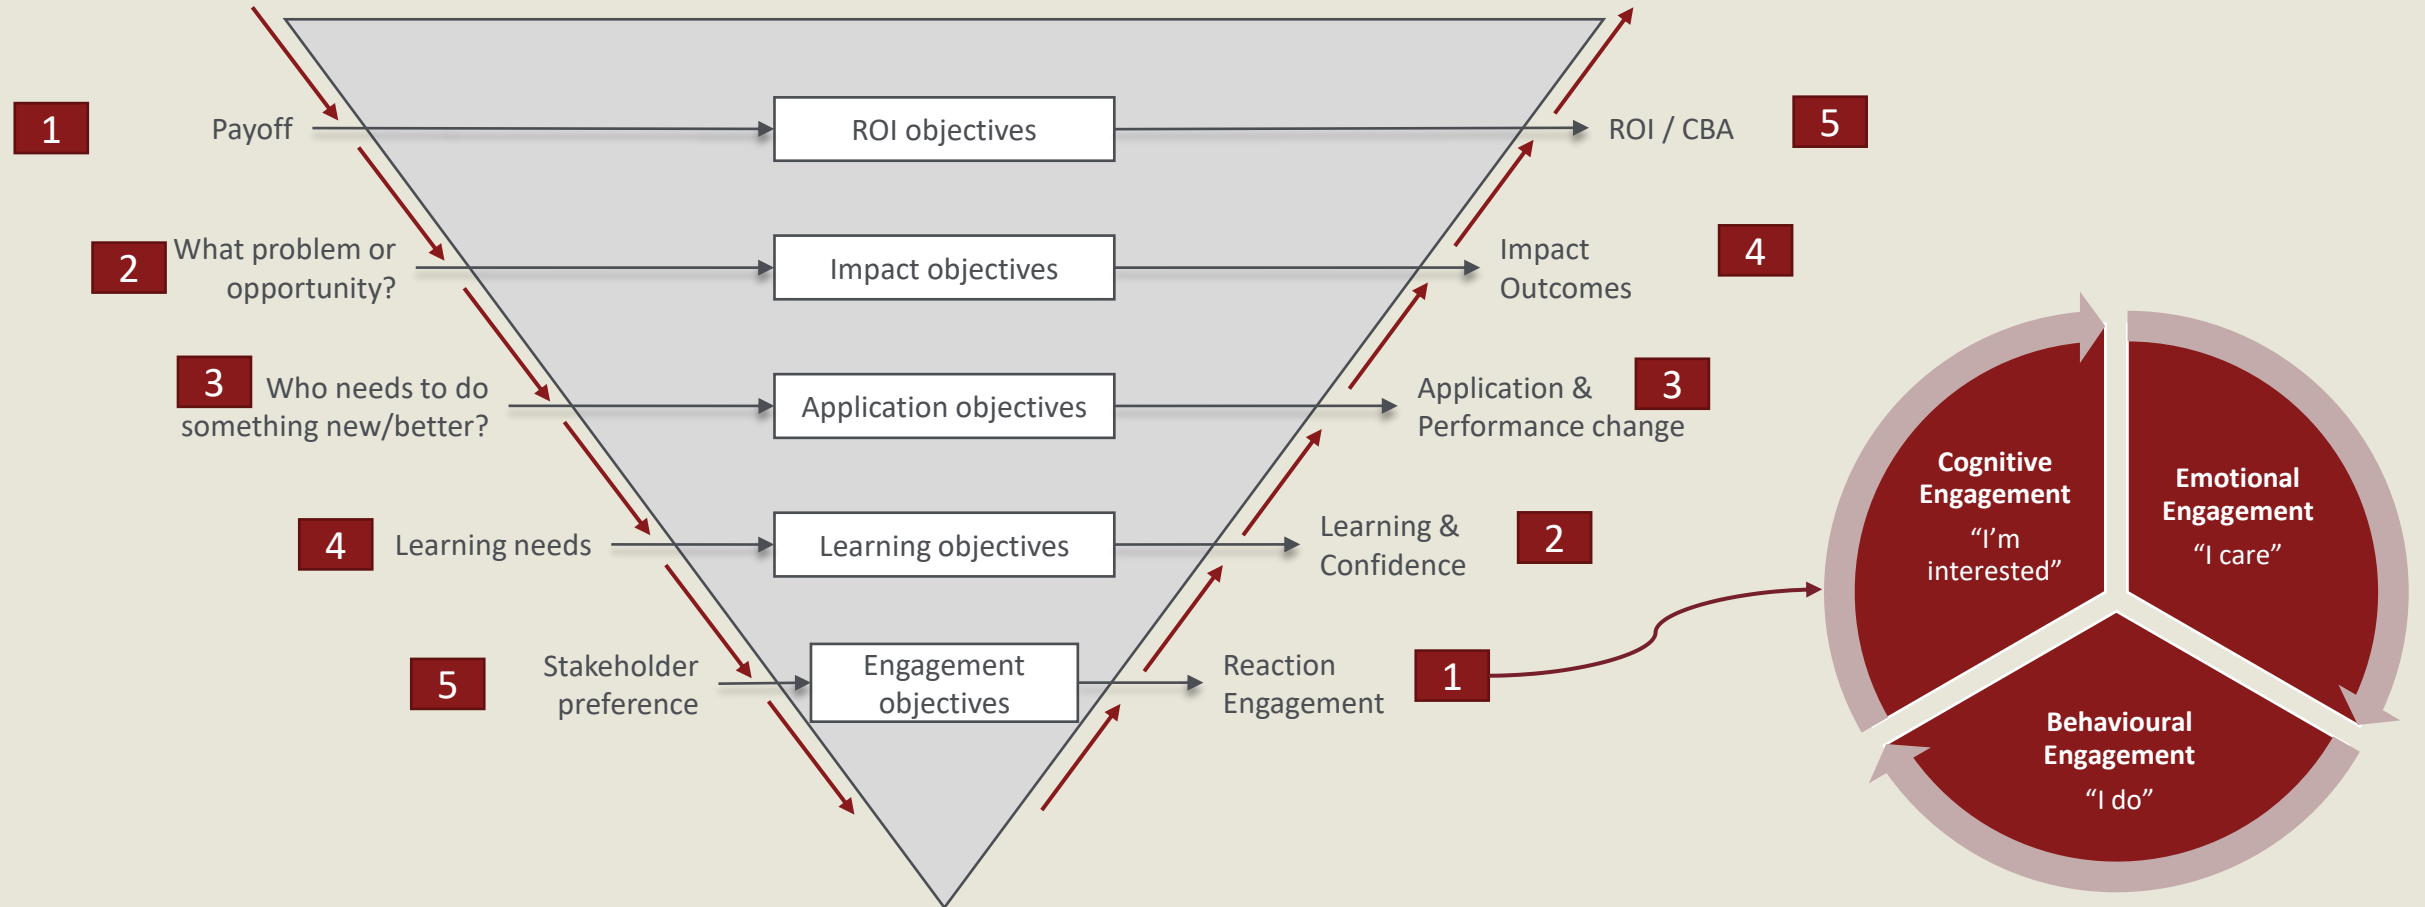

4. Clients manage environments that will be detrimental to their wellbeing, and have resiliency to recover from setbacks

Evaluation Findings

Avi Macmull

Quality & Evaluation Lead

Outcome 1.1: Clients have developed a good rental history, combined with
Outcome 1.2: Clients have secured safe and stable accommodation

Goal 1:
Accommodation

Goal 2:
Education and
employment

Goal 3:
Self-care skills

Goal 4:
Networks and
relationships

Goal 5:
Positivity, capability
and independence

Accommodation Measures

Outcome 2.1: Clients have an increased level of formal education

Goal 1:
Accommodation

Goal 2:
Education and
employment

Goal 3:
Self-care skills

Goal 4:
Networks and
relationships

Goal 5:
Positivity, capability
and independence

Education Measures

Outcome 2.1: Clients have an increased level of formal education

Self-determination measures

Goal 1:
Accommodation

Goal 2:
Education and
employment

Goal 3:
Self-care skills

Goal 4:
Networks and
relationships

Goal 5:
Positivity, capability
and independence

Education Self-Regulation

RAI declining slightly (0.43 to -0.69) implying that clients feel less autonomous about their education despite having increased self-motivation

Outcome 2.2: Clients have an increased level of employment

Goal 1:
Accommodation

Goal 2:
Education and
employment

Goal 3:
Self-care skills

Goal 4:
Networks and
relationships

Goal 5:
Positivity, capability
and independence

Goal 2:
Education and
employment

Goal 3:
Self-care skills

Goal 4:
Networks and
relationships

Goal 5:
Positivity, capability
and independence

Self-Care Self-Regulation

RAI increased substantially from 1.63 to 4.94

Outcome 3.2: Clients have increased knowledge on how to care for their house

Goal 1:
Accommodation

Goal 2:
Education and
employment

Goal 3:
Self-care skills

Goal 4:
Networks and
relationships

Goal 5:
Positivity, capability
and independence

Care For Their Housing Measures

Outcome 3.3: Clients have increased capacity to live independently

Goal 1:
Accommodation

Goal 2:
Education and
employment

Goal 3:
Self-care skills

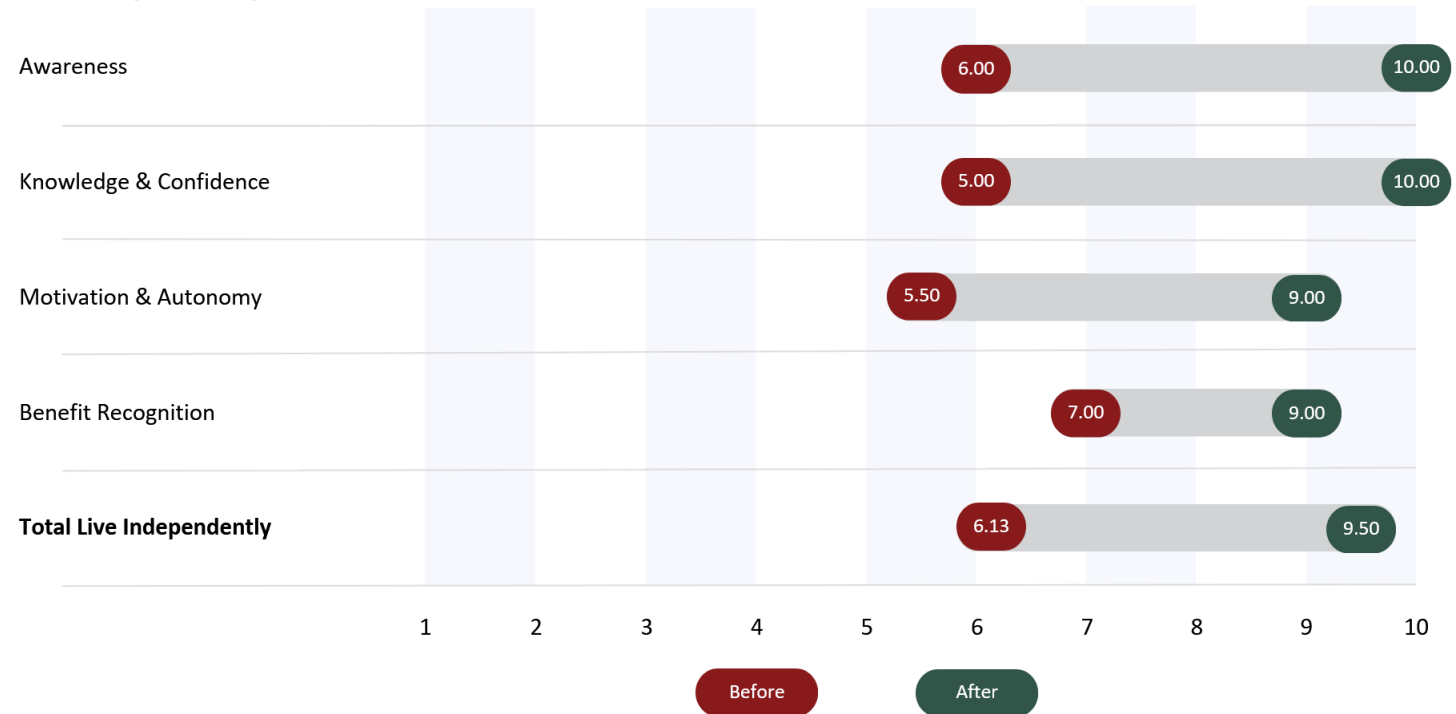

Goal 4:
Networks and
relationships

Goal 5:
Positivity, capability
and independence

Live Independently Measures

Outcome 4.1: Clients have increased their personal networks and supportive informal relationships

Goal 1:
Accommodation

Goal 2:
Education and
employment

Goal 3:
Self-care skills

Goal 4:
Networks and
relationships

Goal 5:

Conclusion

- Growing interest in this program.
- Strong commitment to hearing the voices of young people.
- Accomplishment drives a shift in mindset shift and improves well-being.
- Forecasting that this program creates more sustainable outcomes as young people transition out of statutory care.
- Next for Anchor:
 - Property and TCP funding for program expansion in needed areas.
 - Systematise data collection (integrate with “curriculum”, not retrospective), and triangulation.
